What started out as a Christmas party at the Mother Teresa Otiende home has now grown to support over 30 homes and schools across Kenya through the year, and we are incredibly grateful that we have gotten to be a part of this journey and that we have been able to experience the happiness and joy firsthand and see how one day of being able to give our time can impact a single life.

Over the past 10 years, the Earth Angels' reach has grown tremendously; not only has the size of our team grown, but our children, families, and friends have been able to grow up surrounded by all the love and blessings from all the homes.

To us, the Earth Angels Campaign has become more than just a campaign; it has become a family—a family that is growing every day, and no matter how you have supported us, whether it be prayers, donations, or your time, you have become part of this family and will always be. You have helped us make so many lifelong memories, positive changes in people's lives, friendships that are so true and genuine, and moments that they will never ever forget, and we cannot thank you enough for that.

Thank you for all the smiles, the dances, the joy, and the love, and we can't wait to continue this for years and years to come

All our love,

The Earth Angels Team.
